IMPROVEMENTS AT THE HISTORIC OLD FIRE STATION #94 MUSEUM

The County Board of Supervisors approved at today's hearing Community Development Block Grant (CDBG) funding for a project that will remodel the existing restroom and storage area at the old Fire Station #94 in Lake Arrowhead, to comply with ADA standards. It is the intent of the County of San Bernardino to renovate the old fire station on the north shore of Lake Arrowhead in order for it to be utilized as a historic museum. Rim of the World Historical Society has expressed an interest in operating the facility as a museum to house and display historic documents, artifacts, and exhibits pertaining to all aspects of the San Bernardino Mountain communities, from Cedar Pines Park to Green Valley Lake.

"This approved project will make the fire station ADA compliant in order to open the fire station to the public as a historic museum. The facility is currently vacant surplus property, and it will be an asset to the community to have it accessible as a museum," said Third District County Supervisor Dennis Hansberger.
